

Eaton UPS Services

We at Eaton have developed several service packages for Pulsar series products to match different types of maintenance needs and budgets. Whichever package you choose, you can rest assured it delivers power security and reliability that will keep your core business running.

Warranty+ service package makes it possible to extend your equipment life cycle essentially.

Start-Up+ service package - let our service engineers help you start up your UPS and make sure it works as intended.

Warranty+ Silver service package extends your equipment life, with the assurance of an efficient and reliable start-up compliant with current standards.

Warranty+Gold is the comprehensive warranty package that maximises the up-time and availability of your UPS.

	Warranty+	Start-Up+	Warranty+ Silver	Warranty+ Gold
