1. Determine the location for the shelf and install (8) #10-32 cage nuts as shown in figure 1.
2. Loosen the rear mounting brackets.

3. Attach the front of the shelf to the rails using (4) #10-32 x 5/8" screws as shown in figure 2.

4. Adjust the rear mounting brackets as required and attach them to the rails using (4) #10-32 x 5/8" screws as shown in figure 3. Tighten the screws on the mounting brackets securely.
