PART INVENTORY-HIGH DENSITY CABLE ORGANIZER
(1) High Density Cable Organizer
(12) #10-32 Cage Nuts
(12) #10-32 x 5/8" Screws

TOOLS REQUIRED
(1) Phillips Head Screw Driver (not supplied)

1. Determine the location for the Cable Organizer and install (12) #10-32 cage nuts as shown in figure 1.
2. Attach the front of the Cable Organizer to the rails using (4) #10-32 x 5/8” screws as shown in figure 2.

3. Loosen and adjust the rear section of the Cable Organizer as required and attach it to the rails using (8) #10-32 x 5/8” screws as shown in figure 3. Tighten the screws on the mounting brackets securely.
4. Attach the Extension to the rear of the Cable Organizer using (4) #10-32 x 5/8” screws as shown in figure 4.
