IMPORTANT SAFETY INSTRUCTIONS!

WARNING: A WARNING alerts you to the possibility of serious injury or death if you do not follow the instructions.

CAUTION: A CAUTION alerts you to the possibility of damage or destruction of equipment if you do not follow the corresponding instructions.

WARNING: Failure to read, thoroughly understand, and follow all instructions can result in serious personal injury, damage to equipment, or voiding of factory warranty! It is the installer’s responsibility to make sure all components are properly assembled and installed using the instructions provided.

WARNING: Failure to provide adequate structural strength for this component can result in serious personal injury or damage to equipment! It is the installer’s responsibility to make sure the structure to which this component is attached can support five times the combined weight of all equipment. Reinforce the structure as required before installing the component.

WARNING: Exceeding the weight capacity can result in serious personal injury or damage to equipment! It is the installer’s responsibility to make sure the combined weight of the mount and all attached components does not exceed 75 lbs (34.02 kg).

WARNING: Use this mounting system only for its intended use as described in these instructions. Do not use attachments not recommended by the manufacturer.

WARNING: Never operate this mounting system if it is damaged. Return the mounting system to a service center for examination and repair.

WARNING: Do not use this product outdoors.

NOTE: The JSBU is for use ONLY with J-Series mounts.

S (10) #10
T (8) .750 x .344 x .500
WARNING: IMPROPER INSTALLATION CAN LEAD TO MOUNT FALLING CAUSING SERIOUS PERSONAL INJURY OR DAMAGE TO EQUIPMENT! DO NOT substitute hardware. Only use hardware provided or specified by manufacturer.

1. Determine and mark the vertical center position between the left side upper and lower mounting holes in display. (See Figure 1)

2. Determine and mark the vertical center position between the right side upper and lower mounting holes in display. (See Figure 1)

3. Orient vertical mounting bracket (A) so that mounting holes are on top and mounting slots are on bottom. (See Figure 1)

4. Align mounting holes and slots in vertical mounting bracket (A) with upper and lower mounting holes in display.

5. Adjust vertical mounting bracket (A) position until mark made in Step 1 aligns with center mark in vertical mounting bracket (A).

6. Secure left side vertical mounting bracket (A) to display using two Phillips pan head screws (D through R). (See Figure 2)

   NOTE: Also use #10 flat washers (S) if using screws D or E.

   NOTE: If the display has a recessed mounting surface, protrusions or a power box, a spacer and longer mounting hardware must be placed between the display and vertical mounting brackets (A). (See Figure 2)

7. Repeat Steps 3 through 6 for right side vertical mounting bracket using the same hole locations to align brackets horizontally.
8. Attach center bracket (B) to vertical mounting brackets (A) using four M4 x 12mm Phillips head screws (D) and four #10 flat washers (S). (See Figure 3)

9. Attach J-Series mount to JSBU using two M4 x 6mm Phillips head cap screws (C) in the upper two mounting holes. (See Figure 4)

10. Complete attachment of J-Series mount using two M4 x 6mm Phillips head cap screws (C) in the lower two mounting holes. (See Figure 4)

11. Complete installation following the J-Series mount installation instructions.
