1. Determine the location for the Swivel Keyboard Drawer and install (8) #10-32 cage nuts as shown in figure 1.
2. Loosen the screws on the sides of the rear mounting brackets. Attach the front of the drawer to the rails using (4) #10-32 x 5/8” screws as shown in figure 2.

3. Adjust the rear mounting brackets as required and attach them to the rails using (4) #10-32 x 5/8” screws as shown in figure 3. Tighten the screws on the side of the rear mounting brackets.
4. The Swivel Keyboard can be accessed by (1) extending the unit to full lock-out position and (2) sliding the Keyboard Tray out. See figure 4 and 4a. Rotate the keyboard tray 90 degrees clockwise and slide it back against the rails as shown in figure 5. Reverse this procedure to retract the Keyboard. To return the Keyboard, depress the release latches.

5. Supplied with the hardware kit are two plastic cord clips. Remove the backing, exposing the adhesive and attach the cord clips to the desired location on the drawer.
