TOOLS REQUIRED
(1) 3/4" Open end wrench (not supplied)

IMPORTANT: A Pull Shelf or Foot Rest must be installed on the TechBench™ if casters are to be used.

1. Using a 3/4" open end wrench, remove the Glide Feet from the TechBench™. Place the wrench on the "flats" located on the threaded shaft and back the Glide Foot out. See figure 1a and 1b.

Figure 1a

2. Install the Locking Casters on the front of the TechBench™ using the 1/4-20 Hex Washer Hd. screw. See figure 2.

3. Install the Non-locking Casters on the rear of the TechBench™ using the 1/4-20 Hex Washer Hd screw. See figure 2.
