Tools Required
- Phillips head screwdriver

NOTE: The TechOrganizer Connectors are installed when it is desired to gang adjacent or back-to-back TechOrganizers together.

The units being connected must be the same height.

CONNECTING ADJACENT UNITS

1. Position the two units to be connected side by side. Adjust the Levelers so that the tops of the TechOrganizer frames are even. See Figure 1.

2. Remove the plastic End Caps from the adjacent frames. See Figure 1.

3. Install the Connector as shown in Figure 2.

4. Lock the Connector in place using four #8-32 x 3/8” Phillips pan head thread forming screws provided. See Figure 2.
CONNECTING TWO BACK-TO-BACK UNITS

1. Position the two units back-to-back. Adjust the Levelers so that the tops of the TechOrganizer frames are even. See Figure 3.

2. Remove the plastic End Caps from the frames.

3. Install the End Connectors as shown in Figure 3.

4. Lock the End Connectors in place using two #8-32 x 3/8” Phillips pan head thread forming screws provided. See Figure 3.

CONNECTING FOUR ADJACENT BACK-TO-BACK UNITS

1. Position the two back-to-back units to be connected side by side. Adjust the Levelers so that the tops of the TechOrganizer frames are even. See Figure 3.

2. Remove the plastic End Caps from the adjacent frames.

3. Install the Intermediate Connector as shown in Figure 3.

4. Lock the Intermediate Connector in place using four #8-32 x 3/8” Phillips pan head thread forming screws provided. See Figure 3.

IMPORTANT: When using Connectors on back-to-back Organizers, the Organizers must be attached .20” from the back edge of the worksurface. See Figure 1.
