Eaton Offers Three-Year Warranty On Popular UPS Models

August 19, 2009 ... Today Eaton announced the availability of three-year warranties for all Powerware® series 3 and 5 uninterruptible power systems (UPSs) purchased on or after August 19th, 2009. Customers who register their products online will receive the three-year warranty at no extra cost. These popular models purchased in the United States and Canada will now be covered by Eaton's warranty:

- [Eaton 3105 UPS](#)
- [Eaton 5110 UPS](#)
- [Eaton 5115 Rackmount UPS](#)
- [Eaton 5115 Tower UPS](#)
- [Eaton 5125 Rackmount UPS](#)
- [Eaton 5125 Tower UPS](#)
- [Eaton 5130 UPS](#)

In addition, Eaton will continue to offer service upgrades and Gold plans for all products, including an extended warranty plan option that protects the UPS for five years.

"Eaton brings a competitive offering to customers with the initial warranty plan rollout for the Powerware series 3 and 5 UPSs," said Matthew Cheap, product manager, Eaton Power Quality Division. "Also, extending the additional coverage to these products keeps the best interests of our customers in mind."

Eaton's award-winning UPS products are designed to meet today's demanding power challenges giving customers the highest level of reliability and choice in protecting their computing and telecommunication assets.

To register products, visit www.eaton.com/PQ/Register. For successful registration, the product's serial number (located on the product label of the UPS) will need to be included.
