10Mb BestLink SNMP/WEB Card Firmware Enhancement History

Applies only to part numbers IPK-0318, IPK-0319 and IPK-0329 that do NOT already have firmware v5.00 or greater.

Note: 10Mb BestLink SNMP/WEB Cards are not longer in production. A 10/100Mb direct replacement for the IPK-0318 remains in production and was first shipped with v5.00 firmware.

Version 4.34 (November 2004)

- SMTP-based Email Notification configuration has been enhanced to allow for easier configuration when the SMTP server being used requires the user to login.
